Carbon's interest at 2.5% a month for the days the money is out, with the HMO's expected time to pay as the minimum, and our fee of 1% of the advance, once. Both are taken as a discount on day one; days beyond the minimum come out of the HMO's payment. Nothing else.

WHAT YOU AGREE TO

- Private HMO claims only, and only once the HMO has accepted them.
- Your HMO payments go into a collection account at Carbon, and everything not owed comes back within 48 hours.
- Your main HMOs sign a letter confirming where they pay. We arrange it.
- If an HMO does not pay by the due date, you repay the advance.

WHAT WE DO

- A free review of your outstanding claims before anything is signed.
- Every claim checked before it is funded, and every HMO payment chased and reconciled.

Pilot terms, subject to Carbon's credit approval and a signed facility agreement. Figures on 30-day months; the minimum period is set per HMO from its payment record.
