

Panel shortlist

Fifty candidates for the four open seats on *From Within, Outward*, plus the chair. The first name in each table is the recommendation.

PREPARED FOR

Dr Itunu Akinware and Dr Chinwe Kpaduwa

BY

Consult for Africa

STATUS

Working shortlist. Nobody has been approached.

How to read this

Four seats are open. Dr Chinwe Kpaduwa holds the fifth, the featured fireside, so the panel needs people who cover the inside half of the proposition and one person to hold the room.

Candidates are grouped by seat and ordered by fit, not by fame. Each carries a flag where there is something you should know before anybody picks up the phone.

Flag	What it means
Clean	No conflict found. Approach freely.
Competitor	Runs or fronts a practice that competes with Medlyfe or with Lyfe Plastics.
CFA conflict	Already a CFA client or a live CFA prospect. Debo decides before contact.
Unverified	Could not confirm they are currently in the role stated. Check before approaching.
Handle with care	Public controversy, or a reason the room might react.

What each seat has to do

Seat	What it covers	Why it matters on the night
Longevity and health optimisation	What actually changes in the body as we age, and what can be acted on early	The proposition fails without it. This is the seat that makes the evening about longevity rather than about aesthetics
Metabolic health and hormones	Metabolism, weight, body composition, hormonal change, sleep, energy	The single subject this audience is living through and rarely gets a straight answer on
Skin and regenerative medicine	Skin ageing and regeneration, and where aesthetic medicine genuinely helps	Bridges the inside and the outside, and keeps the aesthetic half clinical rather than commercial
In the chair	Moderating the panel, the fireside and the questions	Decides whether it is a conversation or four presentations

The rule that governs who we ask

Nobody is paid to bring us a patient, and nobody on this panel is there to sell. A moderator's honorarium is a different thing and is perfectly proper.

The two highest-value seats are the ones that look least commercial: a teaching-hospital clinician and a chair the room already respects. A panel of practice owners reads as a trade show.

Three things the research changed

There is no Nigerian longevity medicine profession to recruit from. No Nigerian longevity society, no verifiable Nigerian physician with A4M or ABAARM certification, and no Lagos clinic practising longevity medicine as medicine rather than as drip retail. What does exist, and is organised and board certified, is **lifestyle medicine**: the Society of Lifestyle Medicine of Nigeria, founded 2017, recognised by the NMA, members certified by the International Board of Lifestyle Medicine. Fill the longevity seat from there and the

seat is credible. Call it longevity and it is not.

Menopause medicine in Nigeria is genuinely thin, and that is documented rather than a gap in the searching. A published survey found Nigerian gynaecologists largely manage severe menopausal symptoms with reassurance and anxiolytics rather than hormone therapy. SOGON has no menopause interest group. There is no Lagos woman gynaecologist with a public menopause practice. The subject your room most wants covered has almost nobody holding it, which is an opportunity as much as a problem.

Do not cast for reach. Outside Aproko Doctor at 2.4 million, there is no Nigerian clinical wellness voice at influencer scale. Confirmed counts on this list run to four figures. The room comes from your own list and from Capital Club, not from a panellist's following.

Seat one: longevity and health optimisation

Name	Who they are	Why this seat	Flag
Dr Moyosore Makinde	Consultant Family Physician and Head of the Lifestyle and Wellness Unit, LASUTH. National President, Society of Lifestyle Medicine of Nigeria. Diplomate, International Board of Lifestyle Medicine	The only person found who covers longevity, sleep and women's midlife in one seat, with a Lagos hospital post and a national presidency behind her. Author on sleep. Interests listed as women's health, prevention and longevity	Clean
Dr Folasade Alli	Founder and Chief of Cardiology, Lagos Executive Cardiovascular Centre, Lekki. Sixteen years Head of Internal Medicine at Lagoon. Int. Associate Member, American College of Cardiology	Preventive cardiology, hypertension and metabolic disease. Her clinic runs both sleep apnoea and clinical dietetics. Writes for BellaNaija on sleep, stress and women's thyroid health, most recently February 2026, so she is current and audience facing	Clean. Also chair capable
Dr Ifeoma Monye	Chief Consultant in Family Medicine, National Hospital Abuja. Founding President of SOLONG. Founder of the Brookfield Centre for Lifestyle Medicine, the first in Africa. Joslin and Harvard Institute of Lifestyle Medicine trained	The most decorated name in the category, and she writes consumer facing pieces so she can hold a non clinical room	Abuja. Reachable at this notice
Dr Abiodun Adelowo	Vice President, SOLONG. Public and occupational health plus lifestyle medicine	Explicitly lists healthy ageing, longevity and diabetes remission as sub specialties. Two decades on reversing hypertension, diabetes and obesity	Abuja
Dr Oluwatomi Kogo	Managing Director, Iwosan Wellness Centre, Victoria Island	Runs the closest thing Lagos has to a legitimate executive longevity proposition, for your exact buyer	CFA conflict. Iwosan is a live CFA relationship through Fola Laoye, and adjacent competition. Debo decides

Name	Who they are	Why this seat	Flag
Dr Banji Awosika	US board certified in internal medicine and nephrology. Plant based and lifestyle medicine advocate. Already flies in for Iwosan and has spoken at the Lagos Private Wealth Conference	Proven in front of this exact audience	Handle with care. Also runs a medical marijuana clinic and speaks publicly on therapeutic cannabis
Prof Oladapo Ashiru	Chairman, MART Group. Holds a Modern Mayr Medicine diploma from Austria and runs Mart-Life Detox, the first Mayr clinic in Africa. Secretary General, International Federation of Fertility Societies	The only Nigerian with a formal European longevity and detox qualification and a clinic to match. A gravitas seat	Competitor. Mart-Life is an anti ageing clinic. He will also pull the conversation to IVF unless steered
Adanna Monde	Founder, GLOW Health, Ikoyi	Named only so you know to avoid her	Competitor, hard. GLOW sells regenerative aesthetics, peptides, NAD+ and metabolic optimisation to the same Ikoyi buyer. She is a nurse, and one press profile overstates it as medical practitioner
Dr David Ikudayisi	Medical Director, Glory Wellness and Regenerative Centre, Lekki	Named only so you know to avoid him	Competitor. His own bio leads with aesthetic and cosmetic medicine, and the clinic sells stem cell, PRP and ozone therapy, which is an evidence liability on a stage you host
Dr Kike Oduba	Listed as Medical Director, FxMed, Sangotedo. IFM trained functional medicine	Functional medicine is the nearest adjacent discipline	Unverified. Her other identity is a Texas practice and a 2021 profile of her makes no mention of Nigeria. Assume US resident until proven otherwise

Seat two: metabolic health, hormones, weight

Name	Who they are	Why this seat	Flag
Dr Afokoghene Rita Isiavwe	Consultant Endocrinologist and Medical Director, Rainbow Specialist Medical Centre, Lekki. Twenty six years. Contributor to the national diabetes guidelines	Thyroid, PCOS, adrenal, fertility and preventative endocrinology, delivered privately to a Lekki clientele. The cleanest fit of all the endocrinologists	Clean

Name	Who they are	Why this seat	Flag
Prof Anthonia Ogbera	Professor of Medicine, Endocrine Unit, LASUCOM. Former Provost. Former Secretary General, Endocrine and Metabolism Society of Nigeria	Her listed research interests are reproductive endocrinology and the menopausal transition in Nigerian women, plus metabolic syndrome and obesity. On paper the most qualified person in Nigeria for this seat	Unverified clinical post, and an academic register. Check she suits an evening rather than a lecture
Dr Adedire Timilehin Adenuga	Lead Bariatric and Laparoscopic Surgeon, GetSlim, Victoria Island. Edinburgh and Portsmouth trained. A thousand procedures	GetSlim is the only Nigerian clinic openly running a GLP-1 programme. He is the answer to the Ozempic question your room will actually ask	Clean
Dr Shekina Iyefu Adanu	Bariatric Care Physician, GetSlim. SCOPE certified by the World Obesity Federation	The only Nigerian found with a formal obesity medicine credential. A woman physician on GLP-1s lands better here than a surgeon	Unverified whether she covers Lagos or sits in Abuja
Mr Abuchi Okaro	Consultant bariatric and metabolic surgeon, Euracare, Victoria Island	Published a ten year retrospective of his own Lagos practice in 2025, the only long run Nigerian obesity surgery dataset found. Brings the hard end, which legitimises the soft end	Clean
Dr Oluwarotimi Olopade	Consultant endocrinologist, LUTH. Current Secretary General, EMSON	Diabetes, thyroid, obesity, pituitary and reproductive disorders. Gives press interviews	Unverified. Sources conflict between LUTH and LASUTH
Prof Ibitrokoemi Korubo	Consultant Endocrinologist, Euracare. Vice President, Diabetes Association of Nigeria	Endocrinology, diabetology, pituitary	Unverified identity and gender. Resolve before any approach
Dr Eniola Afolabi-Obe	Consultant Family Physician and board certified lifestyle medicine physician, reported at LASUTH	Argued publicly that perimenopause can begin in the mid thirties, and pushes bone density, lipids and hormone panels. Precisely the what should I be measuring at forty content	Unverified post. One index places her at a Federal Teaching Hospital
Dr Odinaka Nwodo-Ezeribe	NHS GP, London. Organised Menopause Matters Nigeria 2026 in Abuja	The only person actively building menopause awareness in Nigeria	Handle with care. Billed as a menopause specialist but her listed credentials are GP. London based
Adeyinka Aderoju	Founder, Meno Haven. Ran World Menopause Day walks in four cities	Not a clinician. The lived experience seat, if you want one voice who went through it without guidance	Clean, but bill her accurately

Name	Who they are	Why this seat	Flag
Dr Chito Nwana	MD, Arabella Women's Health, Abuja. American board certified gynaecologist. Hosts HERcast. Keynoted Menopause Matters Nigeria 2026	Perimenopause and HRT, and a broadcaster's manner	CFA conflict. Live CFA engagement. Abuja. Debo decides before contact
Dr Toyin Ajayi	Medical Director, The Bridge Clinic. MRCOG, twenty years in the UK	Strong name, wrong subject. Will pull the panel to IVF	Clean but off brief
Dr Faye Iketubosin	Founder, George's Memorial Medical Centre, Lekki. Immediate past President, Association for Fertility and Reproductive Health	Lists menopause among his interests	Competitor. The centre advertises cosmetic surgery

Seat three: performance, sleep, nutrition, physical function

Name	Who they are	Why this seat	Flag
Ngozi Ojora	Founder, Elite Figures, Ikoyi. Four time NCAA All American. NASM certified, and a MedFit Menopause Health and Fitness Specialist. Has spoken to NLNG executives on the Lagos Business School programme	The audience match of the whole list. Her service lines are perimenopause, bone health and strength, which is the one seat that makes the evening actionable on Monday morning	Clean. Certificates not clinical degrees, so bill her as a coach
Dr Olusola Oguntolu	Clinic lead, Sleep Inc, Ikoyi. American Board certified in internal medicine, pulmonary, critical care and sleep medicine	The only properly board certified sleep physician found in Lagos	Unverified whether he is resident in Lagos or practising in the US
Boroji Osindero	Founder and CEO, Wellpath Physiotherapy, Victoria Island, Ikoyi and Lekki, since 2007. Birmingham trained. Opened Lagos's first inpatient rehab facility	Physical function and recovery, and she gives good copy	Unverified. Newest source found is 2020, so confirm she is still CEO
Dr Jimi Osinaike	Sports Medicine Physician, Summit Orthopaedics. MSc Sport and Exercise Medicine, Manchester Metropolitan	The only true non surgical sport and exercise medicine physician identifiable in Lagos, and he argues exercise as medicine for chronic disease	Unverified. Staff page undated
Dr Adedayo Osholowu	Managing Director, Kasi Healthcare. Interventional sports physician. IOC and FIMS trained. Visiting lecturer in sports medicine at Unilag since 2007	Sports and performance medicine with real credentials	Handle with care. His biologics work sits adjacent to aesthetics
Abasianie Udo-Umo	Registered Dietitian, trading as The Lagos Dietitian. The most public credentialled dietitian found, at roughly six thousand followers	Can talk about jollof and insulin in the same sentence, which matters for this room	Verify her Dietitians Association of Nigeria registration before billing her as registered

Name	Who they are	Why this seat	Flag
Olajumoke Osunsanya	Founder, Khairo Diet Consult. Public health nutrition master's, certified diabetes educator. Corporate clients include IHS Towers	Corporate nutrition, delivered to exactly this cohort	Handle with care. Her client list also includes Coca-Cola and Nigerian Breweries, which is an optics problem on a longevity stage
Esther Olurombi	Clinical Dietitian, NutriFit at the Lagos Executive Cardiovascular Centre	Hospital embedded, no public profile. Pairs naturally with Dr Alli if you want a clinic pairing	Clean
Safiya Adamu	Respiratory therapist running the sleep clinic at LECC	A sleep voice if Dr Oguntolu is unavailable	Not a physician. Bill accurately

Seat four: skin and regenerative medicine

The rule here is to take an academic rather than a clinic owner. A dermatologist who sells the same treatments MedLYFE sells is a rival with a microphone.

Name	Who they are	Why this seat	Flag
Dr Ayesha Akinkugbe	Associate Professor, College of Medicine University of Lagos, and Consultant Dermatologist at LUTH. Sixty publications and two dermatology textbooks. Secretary of both the Nigerian Association of Dermatologists and the African Society of Dermatology and Venereology	The one genuinely safe dermatologist. Real academic authority on skin and appearance, interests in hair and scalp, skin bleaching, sunscreen and photoprotection, and no competing clinic. Closes the loop from metabolic health to the mirror without selling against the host. Her bleaching and photoprotection work is also the public interest angle the press in the room will write up	Clean. The recommendation
Dr Folakemi Cole-Adeife	Consultant Physician and Dermatologist, LASUTH. Roughly twenty five thousand on Instagram as @foladermadoc	Teaching hospital consultant, publicly visible, not a direct commercial rival. The best known dermatology voice with a following of any size	Clean
Prof Yetunde Mercy Olumide	Nigeria's most senior academic dermatologist and the author on skin lightening	An endorsement or a shared platform here is reputational gold and costs nothing but respect. A gravitas seat rather than an energy one	Clean. Confirm she still takes engagements
Dr Olusola Ayanlowo	Associate Professor, LUTH. Editor in Chief, Nigerian Journal of Dermatology	Credible academic bench if the women above are unavailable	Clean. No public facing profile found
Dr Erere Otr ofanowei	Consultant Dermatologist, LUTH	Academic bench	Clean. No public profile verified

Name	Who they are	Why this seat	Flag
Dr Uzo Iloabachie	Skintisfaction Aesthetic, Dermatology and Laser Clinic, Lekki. LUXlife Best Aesthetic Dermatology Clinic Nigeria 2025	Well regarded and media comfortable	Competitor. Runs a Lekki aesthetic dermatology and laser clinic
Dr Veronica Oguike	Elite Dermaesthetica, Victoria Island. MBBS, AAAM, PG Derm. Concierge positioning and her own product line	Strong on skin of colour and the premium buyer	Competitor
Dr Uju Rapu	Belfiore Medical Aesthetics, Ikoyi	Would be a good panellist on any other stage	CFA conflict. Existing CFA client. Debo decides
Hilary Says	UK certified cosmetic scientist, seventeen years, based Lekki Phase 1	A cosmetic scientist is a better credibility partner than a pure influencer, and she can speak to what products can and cannot do	Clean. Not a clinician, so bill accurately

Seat five: the chair

The brief asks for a founder, a broadcaster or a respected professional rather than an influencer. The chair decides whether this is a conversation or four presentations in a row.

Name	Who they are	Why the chair	Flag
Dr Pamela Ajayi	President, Healthcare Federation of Nigeria. Chairman, The Bridge Clinic. Founder of PathCare, now SYNLAB Nigeria. Creator and host of the radio programme and podcast Doctors on Air with Dr Pamela	The recommendation. Broadcaster's instincts, board level standing, a diagnostics and screening frame that connects every other seat, and nothing of her own to sell on the night. The one person here who can make four specialists sound like one argument	Clean
Dr Tewa Onasanya	Publisher, Exquisite Magazine. Owns the Wellness and Style Live Experience, sixth edition September 2026 at Oriental Hotel, and the ELOY Awards	Wellness positioning, an affluent female audience, a proven live format, and a founder who sells partnerships. Chairing also makes her a media partner	Clean. She will want something for Exquisite in return, which is a fair trade
Olatowun Candide-Johnson	Founder and CEO, GAIA Africa, the private members club for senior African women, with its clubhouse on Victoria Island	Convenes this exact demographic for a living. Chairing it also opens GAIA House as a venue for edition two	Clean
Ezinne Akudo	Host, Beyond with Ezinne. Season two launched June 2026 with an audience explicitly described as Lagos style icons	Closest audience fit of the podcast hosts, and a hosted conversation is her actual format	Clean

Name	Who they are	Why the chair	Flag
Dr Folasade Alli	As seat one above	If you would rather the chair be a clinician who can also challenge the panel on the medicine	Clean. Doubles up, so she cannot do both
Amina Oyagbola	Founder, WISCAR. Five hundred women mentored over sixteen years. Senior, mid to late career network	Gravitas and a network that matches the guest list exactly	Clean. Confirm she moderates rather than keynotes
Adesuwa Onyenokwe	Veteran broadcaster, Seriously Speaking	The most experienced interviewer on this list, and a generation the room trusts	Unverified current availability
Funmi Iyanda	Broadcaster and producer, Oya Media	A genuinely good interviewer who will not let an answer slide	Handle with care. She is sharper than a brand evening may want
Mo Abudu	Chairman, EbonyLife	Largest name available. Would guarantee press	Unlikely at this notice, and she may outshine the subject
Dr Chinonso Egemba, Aproko Doctor	Health communicator. Roughly 2.4 million on Instagram, around seven million across platforms. Founder of the 100K Club	By far the largest health audience in Nigeria	Handle with care. He is a public health educator protecting a trust brand and will not front cosmetic promotion. Use him to open or to host, never to answer a clinical question on stage

What I would actually book

Seat	First call	Reserve
In the chair	Dr Pamela Ajayi	Dr Tewa Onasanya, then Olatowun Candide-Johnson
Longevity and health optimisation	Dr Moyosore Makinde	Dr Folasade Alli
Metabolic health and hormones	Dr Afokoghene Isiavwe	Dr Timi Adenuga or Dr Shekina Adanu, if you want the Ozempic question answered head on rather than dodged
Performance and physical function	Ngozi Ojora	Dr Olusola Oguntolu, if sleep earns its own seat and he is in the country
Skin and regenerative medicine	Dr Ayesha Akinkugbe	Dr Folakemi Cole-Adeife

Four women and the chair, all Lagos resident, nobody selling against the host, and one academic in the skin seat so the aesthetic half of the evening stays clinical.

The three calls worth making first are Ajayi, Makinde and Akinkugbe. The chair sets the tone, and the other two are the seats that make this an evening about longevity rather than an evening about treatments.

Before anybody is approached

Four names on this list need a decision from Debo rather than a telephone call. **Dr Chito Nwana** at Arabella and **Dr Uju Rapu** at Belfiore are live CFA relationships. **Iwosan**, through Dr Oluwatomì Kogo, is both adjacent competition and a Fola Laoye relationship. **Grandville** does not appear here at all, because it is simultaneously the direct competitor and a live CFA marketing prospect.

Ten entries carry an unverified flag, mostly on whether somebody is still in the post stated. Verify the post before the name goes on anything printed, because a panellist billed with the wrong hospital is the kind of error a room of clinicians notices.
