The AGELESS programme

What we are doing and why

FOR Medlyfe and the team
FROM Consult for Africa
AS AT 8 October 2026

In short

Target: twenty paid consultations with Dr Chinwe Kpaduwa before 3 November.

She leaves in November. Twenty consultations is ten to twelve operations at published conversion rates.

Five routes feed it. One evening, one booking page, a tour of clinics, a content library, and paid social.

The constraint is her diary, not demand. Eight half hours a week, about 31 slots left. Only twelve fall after the event on 21 October, so the fortnight before it decides whether the number happens.

Why this exists

A digital campaign in March produced 170 leads. Eleven went warm. None booked.

The failure was speed and persistence, not interest. Calling at five minutes rather than thirty multiplies qualification by 21. Half of all leads are never called twice. Ninety three per cent of leads that convert are reached inside six attempts.

So the programme is built around one queue, sorted by how long somebody has waited.

The five routes

Route	What it is	Expected
AGELESS, 21 October	Cocktail evening, 70 guests, Capital Club	10 to 17
Consultation page	Paid booking page, indexed for search	2 to 4
Facility Rounds	She visits clinics in Lekki and VI to meet referring doctors	3 to 6
Content library	Fifty short films answering the questions that stall a booking	2 to 4
Reactivation and paid	The 170 March leads, plus retargeting	4 to 6

Total 21 to 37 against 31 slots. The number is reachable. It fails if the pre-event fortnight goes quiet.

AGELESS

A recurring platform, not a one-off launch. Edition one carries the format, identity, film library and guest list that later editions inherit.

Four names, four jobs:

Name	What it is
AGELESS	The platform
A New Era of Health, Beauty and Longevity	This edition's proposition
The New Science of Ageing Well	The panel
The Art of Looking Like Yourself	Dr Kpaduwa's fireside

Guests register interest. We invite from that list. A place is held only when the invitee uses the personal link in their invitation.

The three pages

Page	Job	Indexed
consultforafrica.com/lyfe	Fill the room	No
consultforafrica.com/lyfe/consult	Fill her diary	Yes
consultforafrica.com/lyfe/visit	Facility Rounds, for clinicians	No

One job each. The event page carries no booking form and no fee.

Mezo carries a fourth surface. ClearSkin is now ClearSkin by Lyfe Plastics and Dermatology, and there is a practice page at mezohealth.com/practices/lyfe-plastics. Mezo already produces organic dermatology demand, which is the cheapest new channel available.

The consultation

■150,000 for thirty minutes with Dr Kpaduwa by video. Put towards the total if the patient goes on to have surgery.

Paid consultations convert to procedure at roughly 90 per cent against 40 per cent for free ones. The fee is a filter, not a barrier. Do not discount it.

She does not discuss fees with patients. Costings come from the team afterwards, in writing.

Facility Rounds

She visits clinics and hospitals in Lekki and Victoria Island, thirty minutes each, at the doctor's facility.

Doctor referral is the highest trust route into a surgical practice. The patient arrives having already decided to trust whoever suggested it.

No fee is paid for a referral in either direction.

Rules that bind everything

Regulator	What it means for us
ARCON	Advertising approved before exposure. Fines from ■500,000. Liability on the advertiser, not the speaker
MDCN	A doctor may not advertise herself. The clinic advertises, the surgeon educates
NAFDAC	Toxins and fillers are prescription only. No brand names in public
HEFAMAA	Scope of practice is live in Lagos now. Do not debate who may inject

No before and after imagery. No outcome claims. The compliant version is also the higher trust version for this buyer.

Timeline

When	What
This week	Doctors, salons and the club. Free, warm, fills pre-event slots
8 October	Content shoot with Dr Kpaduwa
By 10 October	Speaker bios and photographs in, or they miss the programme
Around 15 October	Content library live, paid campaign starts
21 October	AGELESS
22 October to 3 November	Twelve remaining slots, worked by phone, six attempts each

Still open

What	Who
The 170 March leads are not in any CFA system. Get the list	Medlyfe or the agency
Fifth panel seat, on andropause and men's health	Debo
Photographs for Dr Akinware and Ms Awosika	Themselves
Zoom link for the DFC Catalyst session on 24 October	DFC
Whether Dr Kpaduwa will sit more than eight half hours a week	Dr Kpaduwa

That last one matters most. Sixteen half hours a week takes capacity to about 60 and makes twenty a floor rather than a stretch.
