COMPONENT 2 - MANAGEMENT CONTRACT

7.5% of Monthly Revenue. From Month 3.

From Month 3 the management contract replaces all fixed fees. C4A earns 7.5% of Arabella's total monthly revenue confirmed through HospitlOS. When revenue is low the invoice is low. As C4A drives revenue up C4A earns more. No separate performance fee. No tiered structure. No itemised invoice. One number every month.

Monthly Revenue	C4A Fee (7.5%)	Arabella Retains	Arabella %
NGN 8.0M - Current estimated baseline	NGN 750,000 (floor)	NGN 7.25M	90.6%

HOW THIS COMPARES TO THE PREVIOUS PROPOSAL

Simpler. Lighter. Aligned.

	Previous Proposal	Revised - 7.5% Model
Audit / setup	NGN 2,350,000	NGN 1,500,000
Month 1 cash out	NGN 2,525,000 (deposit + retainer)	NGN 750,000 (first audit instalment)
Months 1 to 2 monthly	NGN 1,775,000 / month fixed	Nil - audit phase
At NGN 15M revenue	NGN 1,350,000 fixed + perf fee	NGN 1,125,000 (no perf fee)
At NGN 30M revenue	NGN 2,850,000 (fixed + NGN 1.5M perf fee)	NGN 2,250,000 (no perf fee)
At NGN 44M revenue	NGN 4,410,000 (fixed + NGN 3M perf fee)	NGN 3,315,000 (no perf fee)
Performance fee	Yes - tiered 8% to 12% on top	None - included in 7.5%
Finance as a Service	NGN 250,000/month optional	NGN 250,000/month optional

The key difference: The previous proposal had a fixed retainer plus a separate performance fee that stacked on top as revenue grew. At NGN 30M revenue the total C4A charge was NGN 2,850,000. This revised model charges NGN 2,250,000 at the same level. No stacking. No surprises. One number every month from Month 3.

NEXT STEPS
