LyfePlace

A 90 second film

FOR Kakulus Media
FROM Opeoluwa, Communications Lead, Medbury Healthcare Group
DATE Tuesday 13 October 2026

In short

- A 90 second film that introduces LyfePlace as a destination for health, calm, movement, connection and fun.
- The direction is slow frame changes at the start, building to swift changes that lead to the climax. The copy guides the picture. The audience should be held in a trance-like state, never reading a block of text.
- Built mainly from licensed stock. Tell us in your treatment if any live footage is needed and where.
- Final file by Monday 19 October. Please reply by Wednesday 14 October with your quote.

The reference

https://www.instagram.com/reel/DPQeBnWFFp6/?cplk=eWJ2aWN6bGZ0MTE2

Take the opening stillness from it, then let the cut accelerate.

The copy

The client's copy, as written. Each line is a few words on screen or in the voiceover, never more than one line at a time. Propose which in your treatment.

Copy	Pace and picture
Life comes in seasons.	Slow. Time passing
Ups and downs	Slow
Smiles and frowns	Slow
But somewhere in the desert of daily existence	The grind of the city, still slow
Rests an oasis of relief and refreshing reward.	The turn. Water, shade, green
Welcome to LyfePlace.	First reveal
A destination built to inspire	The cut begins to quicken
health,	Quick
calm,	Quick
movement,	Quick
connection	Quick
and fun.	Quick
Break away from the noise	Fastest
And drown yourself in moments of stillness	Sudden stillness
With experiences that bring you back to life.	Build to the climax
Welcome to calm.	
Welcome to wellness.	
Welcome to LyfePlace.	End card

What must not be in it

- No patients, no drug or product brand names, no claim of a result.
- Stock is predominantly Black and African people, in settings that could be Nigeria.
