The content shoot

What we agree before we book the crew

FOR Dr Chinwe Kpaduwa and Dr Itunu Akinware
FROM Consult for Africa
SESSION This week, sixty minutes

In short

- The shoot did not take place on 8 October, so we are planning it again with both of you before Kakulus Media is booked.
- Seven things are agreed in the session. Once they are, we confirm the crew within 24 hours and nothing else is needed from either of you until the day.
- Scripts or questions reach Dr Kpaduwa three working days before the shoot. First cuts follow ten working days after it, and final films ten working days after that.
- The films are made for one job: to be sent to one person who enquired and has not booked, answering the thing that stopped her.

The seven things to agree

Decision	What we agree, and who decides
1. The date	A full day before Dr Kpaduwa travels. The earlier it is, the more of the films are in use while she is still here, because first cuts take ten working days. Both
2. The stories	Three long and six short from the ten storyboards below, plus an optional tenth. Dr Kpaduwa
3. The words	Interview, prompter or a mix. Dr Kpaduwa approves every line she says before it goes to the prompter. Dr Kpaduwa
4. Medlyfe on camera	Dr Ajelabi for about two hours in the afternoon, for the conversation in story 8. Dr Akinware
5. The locations	Tom Ogboi Avenue, the Kakulus studio and the Medlyfe clinic, each confirmed for the new date. Both
6. Ownership and use	Who owns the footage, where it may be used, for how long, and how either of you can withdraw a piece. Both
7. Sign-off	Who approves each cut, and how quickly. Both

Our proposal on ownership and use

This is the decision that matters most, so we suggest a starting point rather than an open question.

	Proposal
Owner	Medlyfe owns the footage and the finished films, as the business that pays for them and takes the bookings
Dr Kpaduwa's image	Used only to market the Medlyfe service she leads, for 24 months from delivery. Any other use needs her written consent
Approval	Nothing showing Dr Kpaduwa is published until she has approved that cut
Withdrawal	Either of you can withdraw a piece from use with 30 days' notice, without needing to give a reason
Every call to action	Medlyfe's. Dr Kpaduwa explains, the clinic books

The ten storyboards

Kakulus recommends all ten. Their production plan, which we bring to the session, sets each one out frame by frame, along with the rules on set agreed last time.

Story	The hesitation it answers
1. Aftercare	Who looks after me when everyone has gone home? Long
2. Why not fly to Istanbul?	Istanbul does the whole thing for one price. Short
3. Two in the morning	I have read the stories, and some are recent. Short
4. The work nobody can point at	Will I look done? Short
5. What I will not do	Will she sell me whatever I ask for? Short
6. Darker skin	Will it scar? Short
7. Your consultation	I do not know what I am walking into. Long
8. Who looks after you	Is it you, or somebody I have not met? Long, with Dr Ajelabi
9. The questions I ask	Why are they asking me all this? Short
10. If something goes wrong	Is this clinic actually equipped? Short, optional
