From Beverly Hills. Now in Lagos.

Five films with Dr Chinwe Kpaduwa / Thursday 29 and Friday 30 October 2026

- **Where:** Thursday, the white wall at our office reception and the Treasure Gardens grounds; Friday, the clinic
- **When:** both days, arrive around 7:30, filming 7:45 to 10:20, away by 10:30
- **Five films:** three for patients, two for referring doctors; each cut into 30 to 90 second clips
- **Patient films:** one woman, never seen full face, decides. She could be anyone you know
- **Doctor films:** in full on YouTube; clips to doctor groups, our platforms and email
- **Your part:** lines in green are suggestions; say them your own way

Thursday 29 October / Office, white wall

7:45 TO 8:25 / FILM 1 / PATIENTS

The London Question

Opens on: she unpacks a suitcase; her phone lights up, "Where are you?" She types: "Home."

"The question I am asked most in Lagos: why not just fly to London?"

- The same Beverly Hills standard, in Lagos
- One surgeon at every follow-up, from week one to month eight
- Privacy: recovery at home, results that read as rested, not done

End card: Stay home. Private consultations in Lagos

8:25 TO 9:05 / FILM 2 / PATIENTS

After Children

Opens on: an aso ebi on the wardrobe door; she puts the waist trainer down

"Your waist trainer can hide it. It cannot repair it."

- What pregnancy and caesareans change, and what can be repaired
- Liposuction or tummy tuck
- Scar placement and keloid on darker skin

End card: Ask for a private consultation

Thursday, continued / For doctors

9:05 TO 9:40 / FILM 4 / DOCTORS

After Cancer and Weight Loss

For oncologists, breast and bariatric surgeons. Opens on a WhatsApp: "I have a patient for you"

"Some of the women who need me most are already in your care."

- Reconstruction after mastectomy, if offered here
- After major weight loss: when a patient is ready
- What you get back: a letter, and your patient returned to you

End card: Refer a patient, with the number

9:40 TO 10:00 / FILM 5 / DOCTORS

After Caesareans

For gynaecologists and GPs. Seated, framed landscape

"When the abdomen after several caesareans is a medical problem."

- Hernia, separated muscles, overhang, skin breakdown
- Abdominoplasty, panniculectomy or hernia repair: which one
- How to refer, and what to send with the patient

End card: Refer a patient, with the number

10:00 TO 10:20 / OUTDOORS

You, in Lagos

- A short walk in the Treasure Gardens estate grounds, near the office
- Your car on the Link Bridge, shot on a phone on the way in

Friday 30 October / At the clinic

7:45 TO 8:05 / CLINIC

You, in the clinic

- Arriving and greeting the team at reception
- The corridor with the MedLYFE sign; the consultation room door
- Cut into every film, so no one doubts you are seeing patients here

8:05 TO 9:30 / FILM 3 / PATIENTS

Your First Hour

Opens on: her hand filling in a health form; she sits down across from you

"Before I agree to operate, there are things I need to know about you."

- The checks before anaesthesia: blood, genotype, pressure, diabetes
- The patients you send home without surgery
- What she leaves with: a plan and a written estimate
- Closing shot: she walks out into the Lagos morning

End card: Book your first hour, with the number

9:30 TO 10:20 / CLINIC

Pickups

- Any line you want to say again, and short answers for clips
