# MedLYFE

WELLNESS AND LONGEVITY CENTRE

# Thirty minutes with a plastic surgeon.

A consultation with Dr Chinwe Kpaduwa, in person at MedLYFE or by video. You bring what you are thinking about; she tells you what is involved, what she would and would not do, and whether you should be doing anything at all.

### WHAT A PROPER CONSULTATION LOOKS LIKE

01 Somebody examines you, rather than looking at a photograph.

02 Somebody asks about your health, not only about your goals.

03 Somebody tells you plainly what will not work.

04 You leave with a written plan and a written price.

05 Nobody asks you to pay on the day to hold a discount.

## A consultation, in person or by video

NGN 150,000. Put towards the cost of a procedure if you require one and decide to proceed.

All procedures carry risk. Whether any treatment suits you is a clinical decision taken at a consultation, after an examination. Not clinical advice or a promise of a result. The clinical decision rests with the registered clinician who sees you.
