AGELESS

What it is, and how to sell it

FOR	Sally

EVENING	Wednesday 21 October 2026

The evening

AGELESS is a cocktail evening at the Capital Club, Lagos, on Wednesday 21 October. Arrival half past five, programme from half past six, close at half past nine. Seventy places.

Hosted by Medlyfe. It introduces Dr Chinwe Kpaduwa and Lyfe Plastics and Dermatology to a Lagos audience that already spends on how it looks and feels.

The argument is that how you feel and how you look are one appointment, not two. A panel takes the inside. A fireside turns outward.

Who is in the room

Women and men over forty in Ikoyi, Victoria Island, Lekki and Banana Island. People who already buy wellness, aesthetics and private healthcare and have never had the whole subject explained by people who actually know. Clinicians are welcome and a few places are kept for them.

Not a seminar crowd. They are coming for an evening out that happens to be useful.

Who is on

Speaker	On what
Dr Adedotun Ajelabi	Clinical Lead, Medlyfe. Opens on the range of what modern medicine can now do about ageing
Dr Itunu Akinware	Chief Executive, Medbury Healthcare Group. Chairs the panel
Dr Timi Adenuga	Lead Bariatric and Laparoscopic Surgeon, GetSlim. Metabolism, weight, and the new drugs
Gbemi Giwa	Founder of the African Fat Loss Method. Eating the food we eat and still changing shape
Joycee Awosika	Founder and Chief Executive, the ORÍKÌ Group. Vitality and energy
Dr Folake Kofo-Idowu	Founder and Medical Director of Nelia. Menopause, hormones, what is worth measuring after 40
Dr Chinwe Kpaduwa, MD FACS	Plastic surgeon, board certified in the United States. The fireside, with Dr Debo Odulana

Bios, as they should be used

Dr Chinwe Kpaduwa, MD FACS. Plastic surgeon, board certified by the American Board of Plastic Surgery and a Fellow of the American College of Surgeons. Harvard educated, California trained, with a craniofacial fellowship at Nationwide Children's Hospital. Her published position over two years of writing is that the point of this work is to look like yourself.

Dr Folake Kofo-Idowu. Double board certified physician, founder and Medical Director of Nelia and its women's health service line Nelia Oasi. She practises across internal medicine, metabolic health and infectious diseases, and her work is in evidence-based menopause care, hormone optimisation and preventative women's medicine.

Gbemi Giwa. Award winning fitness and nutrition coach with over a decade of experience helping women build strong, lean bodies without disconnecting from their culture. Founder of the African Fat Loss Method, which blends structured strength training, culturally relevant nutrition and mindset work. More than ninety five thousand across Instagram and TikTok. Covered by Women's Health Middle East, Cosmopolitan Middle East, Entrepreneur, The National and Emirates Woman, and has worked with Nike and Apple.

Dr Timi Adenuga. Lead Bariatric and Laparoscopic Surgeon at GetSlim, Victoria Island. Edinburgh and Portsmouth trained, with around a thousand procedures behind him. GetSlim is the only Nigerian clinic openly running a GLP-1 programme, so he is the answer to the question this room will actually ask.

Dr Itunu Akinware. Chief Executive of Medbury Healthcare Group, which runs specialist care, preventive health and wellness businesses in Nigeria. She chairs the panel.

Dr Adedotun Ajelabi. Clinical Lead at Medlyfe. Opens the evening on the range of what modern medicine can now do about the way we age, from the everyday to the surgical.

Joycee Awosika. Founder and Chief Executive of the ORÍKÌ Group, a wellness business of ten years standing with spas and hair restoration centres across several African countries, its own manufacturing in Nigeria, a training institute and an app. Note the spelling: Joycee, with two e's.

The two we hold are at consultforafrica.com/lyfe/chinwe-portrait.jpg and consultforafrica.com/lyfe/gbemi-portrait.jpg. Use only those. Do not lift a picture off anybody's Instagram for a printed or paid piece, because we do not hold the licence and the photographer does. The five blanks are being chased.

The four lines that sell it

The panel. The New Science of Ageing Well. What changes in your body, brain and skin after 40, and what you can actually do about it.

The surgeon. Board certified by the American Board of Plastic Surgery and a Fellow of the American College of Surgeons. Both are checkable, and in this market that claim is made more often than it is true. She is in Nigeria for a limited period.

The room. Seventy places. Invitations go out from the list of people who register interest, so registering is not the same as being in.

The evening. Cocktails, a panel, a fireside and an hour afterwards with the clinicians still in the room. Not a seminar.

Where to send people

consultforafrica.com/lyfe

They register interest, we come back to them either way. Never promise anyone a place; the room is seventy and the list will be longer.

If someone cannot come but wants to see Dr Kpaduwa privately, send them to consultforafrica.com/lyfe/consult.

Three things never to say

Never name a prescription product. Not a toxin, not a filler, not a weight loss drug by brand. ARCON requires approval before exposure, the minimum fine is five hundred thousand naira, and the liability sits on us rather than on whoever said it.

Never promise a result. No before and after claims, no "most people see". It is an evening about understanding what changes, not a treatment being sold.

Never say a place is confirmed until the person has had an invitation and used the link in it. The room fills by confirmation, not by interest.

What we need from you

The list. Seventy places needs an invited list of roughly twice that, so names are the single most useful thing you can bring this week.

Press and partners. Capital Club's own members overlap this audience almost exactly, and the club mentioning it is worth more than a paid post.

Anyone who says yes, send straight to the page. Do not collect names in a notebook, because the page puts them in the queue and the notebook does not.
