AGELESS

Speaker pack

FOR	Speakers and panellists
FROM	Medlyfe, with Consult for Africa
EVENING	Wednesday 21 October 2026

In short

- Wednesday 21 October. Capital Club, Lagos. Be in the room by 6:15pm.
- Send your bio and a photograph by Friday 10 October, or you miss the printed programme.
- Your questions are below. They are a brief, not a script. Tell us what you would rather be asked.
- Seventy guests. Lagos women and men over forty. A cocktail evening, not a seminar.
- Dr Adenuga holds hormones and metabolism. Dr Kpaduwa holds ageing in Black skin, aesthetics and surgery, and goes no further on hormones than what they do to skin.
- No slides, no lectern. Cocktail dress.

What we need from you

What	Detail
Bio	80 to 100 words, written as you want to be introduced
Photograph	Any good headshot, high resolution
Corrections	Questions you would rather not be asked, or would rather be asked

By Friday 10 October, or it misses the printed programme and the press pack.

The opening address

Dr Adedotun Ajelabi. 10 minutes. You set the frame. The room should leave understanding that medicine now has a range of answers to ageing, from everyday to surgical.

Cover:

- What medicine can do now that it could not ten years ago.
- Where the everyday ends and the medical begins.
- What is established, and what is oversold.
- What Medlyfe does with that range in practice.

The panel

The New Science of Ageing Well. What changes in your body, brain and skin after 40, and what you can do about it.

45 minutes. Four seats, about eleven minutes each. Chaired by Dr Itunu Akinware.

Rule: every answer ends in something a guest can do this week. The chair will come back to anyone who finishes on a generality.

Dr Timi Adenuga, on metabolism, weight, hormones and the new drugs

- Why does the same diet stop working at 45?
- The weight loss drugs. Who are they for, who should not take them, what is the honest result?
- What happens when someone stops?
- Is surgery ever the right first answer?
- First thing to do tomorrow?

Gbemi Giwa, on food and body composition

- Can you eat Nigerian food and change your body? What does that look like on a real plate?
- What do people get wrong in the first month?
- A woman of 45 who has never lifted. Where does she start?
- What does a realistic twelve weeks look like?
- What works and costs nothing?

Joycee Awosika, on maintaining beauty and managing stress

- What does maintaining beauty actually take, week to week, for a working woman in Lagos?
- Ten years in this market. What do Nigerian women buy, and what do they say they want?
- What is sold in Lagos that does not work?
- Stress. What does it do to how people look, and what do you see in your clients?
- What is the cheapest thing that works, that nobody will sell them?

Dr Chinwe Kpaduwa, on ageing in Black skin, aesthetics and plastic surgery

- Ageing as a Black woman. What actually happens to Black skin over time, and how is it different?
- Most anti-ageing marketing is built on white skin. What of it applies here, and what does not?
- Which procedures are worth doing in a Black population, and which carry more risk on our skin?
- Hormonal change shows up in skin. What do you see, and what helps?
- What does looking like yourself mean in practice, and what do you refuse to do?
- Travelling abroad for surgery. What goes wrong, and when?

The chair

Dr Akinware keeps one argument moving across four people. She cuts in on generalities and makes sure each panellist is asked something only they can answer.

She moves the conversation on if it reaches who may perform what. That is a live regulatory question, not entertainment.

Running order

Time	What	Who
5:30	Arrival. Speakers in the room by 6:15	Everyone
6:45	Welcome and opening film	Dr Ajelabi
6:50	The range. 10 minutes	Dr Ajelabi
7:00	The panel. 45 minutes	Chaired by Dr Akinware
7:45	What you can actually do. 15 minutes	Medlyfe
8:00	Questions from the room. 15 minutes	All speakers
8:15	After Hours. Close 9:30	Everyone

Rules for the stage

No named prescription products. No toxins, fillers or weight loss drugs by brand. ARCON requires approval before exposure, fines from ■500,000, and the liability sits on Medlyfe rather than the speaker.

Do not pitch your own practice. MDCN treats self-advertisement by a doctor as a disciplinary matter. You will be introduced properly.

No before and after claims. No outcome promises. "Most people see" is a claim. "In my experience, some people find" is not.

Do not debate scope of practice. HEFAMAA has it live in Lagos now.

Practicalities

Venue	Capital Club, Lagos
Arrive	In the room by 6:00pm
Dress	Cocktail
Audio	Handheld on the panel, lapel for the address
Slides	None. No lectern. One image behind you if it earns its place
After Hours	Please stay. The useful conversations happen after 8:30

Reply to this note with anything.
