AGELESS

What the evening is for

FOR Dr Chinwe Kpaduwa
FROM Dr Debo Odulana, Consult for Africa
EVENING Wednesday 21 October 2026

In short

- Seventy people who can afford surgery and have never been told the truth about it.
- You are on the panel, not selling. The selling happens in the hour afterwards and in the weeks after that.
- The evening is Medlyfe's. A surgeon introduced by a licensed centre reads differently from one advertising herself.

Who is in the room

- Lagos women and men over forty in Ikoyi, VI, Lekki and Banana Island, already spending on wellness and private healthcare.
- Twenty Capital Club members, fifteen Medbury corporates, ten doctors, the rest invited.
- The doctors matter as much as the buyers. They refer.

What it is meant to achieve

For you	How
Authority, in public	A panel seat beside physicians, not a pitch
Referring doctors	Ten in the room, plus clinic visits in Lekki and VI
Consultations	An hour afterwards with you there, plus film, photography and press

Your part

- Panel, 7:00 to 7:45. Four seats, chaired by Dr Akinware, eleven minutes each.
- Your subjects: ageing as a Black woman, what the anti-ageing market is actually worth in a Black population, aesthetic medicine, and where surgery belongs.
- You are the only person on the stage who can hold that. US board certified, California trained, practising in Lagos.
- No slides, no lectern, handheld microphone.
- Please stay for After Hours, 8:15 to 9:30. That is where people ask what they would not ask from a seat.
- Everyone who attends is contacted within 48 hours. Your booking page is live, and clinic visits in Lekki and VI are being arranged.

- By 10 October: confirm the subjects above, and anything you would rather not be asked.
